

ZIBO TAEHOON PLASTIC INC.

We weave your business.

Contact us >

Our Products

We are proud to introduce our protective covers for exposed objects or areas. We provide a wide range of durable plastic sheets, from reinforced multi-purpose tarpaulin to pop-up gardening containers, at reasonable prices. Our products will meet your specifications as requested on our customized order forms, bringing you the most satisfaction.

Our strength

We provide value to customers with our passion

Superior Quality

Our strict factory guidelines & quality control standards control the quality from the beginning to the end.

High Tech

Our state of Art machines assure the quality, the efficiency and the productivity.

R&D

Our enthusiastic specialists make the difference in products now and future.

Introduction

Overview

More than two decades ago, TAEHOON began weaving a reputation for quality

ZIBO TAEHOON makes plastic covers that you can trust! With more than 24 years of accumulated know-how, ZIBO TAEHOON successfully has built and maintained an excellent professional reputation. With respected & skilled technicians, ZIBO TAEHOON provides quality and quantity to every corner of the world. Now with manufacturing facilities both in Shangdong, China, and Hanoi, Vietnam, ZIBO TAEHOON exports more than 1,200 tons of our plastic covers every month.

Transformed into a Korea-China joint venture in April 2008, ZIBO TAEHOON has invested US \$8 million in development. ZIBO TAEHOON has strong financial backing from our independent power plant, which produces electricity for more than half of city. ZIBO TAEHOON can create perfect products from great equipment at a reasonable price with any risk to business.

PRODUCTS

We seek, suggest and develop the very best line of product to always stay at the top of the competition.

Reinforced Tarpaulin

Our reinforced tarpaulin is the most popular ready-made tarp. This strong and high-density tarpaulin is 100% water-resistant. With special reinforcement at each corner and stapled grommets, our tarpaulin is stronger than ever. It will withstand repeated exposure to sunlight thanks to our remarkable UV coating, which covers both sides of fabric. We provide a large selection of tarpaulins. The different sizes, colors, and forms are available for customization at your request. If you're looking for a quality tarpaulin at the best price, you can do no better than a ZIBO TAEHOON tarpaulin. As the industry's leading experts, we are proud to be the #1 supplier of the best ready-made tarps.

Specifications

- Tear Resistant
- 100% Water Resistant
- Heavy Duty Poly Tarpaulin
- Rust-proof grommets
- PP rope reinforced in hem
- Mat finished
- UV(Ultra Violet) on both sides
- FR(Fire Retardant)
- Arctic Flexibility

Weave: 7×7 - 16×16

Denier: 650D - 2,000D

Size: Wide ranges of sizes are available

Color: Any color is available including camo, leno, stripe.

Shape: Common shape is rectangle, but other shapes are available at your request.

Pool Cover – Rectangular, Round, Oval

Our pool cover provides superior protection for swimming pools. The 100% water-proof fabric and remarkable fabric coating further enhance its strength and durability, yet it's easy to handle and lightweight. It will stand firm against repeated exposure to sunlight, freezing temperature, and damage from strong winds. Especially designed to resist rips, tears, or punctures, our pool cover is ideal for cold, windy weather. It's available in round, oval, and rectangle shapes and comes in different sizes and colors. Thanks to high customer satisfaction and our reasonable price, we are proud to introduce to you our pool cover.

Specifications

- Tear Resistant
- 100% Water Resistant
- Rust-proof grommets
- UV(Ultra Violet) on both sides
- Arctic Flexibility
- High Flexibility

- Weave: 7×7 ~ 16×16
- Denier : 650D ~ 2,000D
- Size : Wide ranges of sizes are available
- Color : Any color is available
- Shape : Round, Oval, Rectangle, and etc.

PP Weed Barrier

Our well-made Weed Barrier blocks out sunlight while water, oxygen, and nutrients reach plants to allow for healthy soil. Thanks to this geotextile composed of polypropylene with a meshed texture, weeds can't grow. Durability, strength, permeability: our Weed Barrier works! Our Weed Barrier has met various governments' strict standards. It's easy to install and ideal for agricultural use, landscaped beds, beneath decks, and walkways. We are proud to introduce to you our well-made Weed Barrier.

Specifications

PROCESSING

Developing Enterprise on the Foundation of Customer's Confidence

Who has brand new machine for the whole production lines?

Oct 2011 Replaced with modernized high-tech facilities overall

For more than two decades, ZIBO TAEHOON has been weaving a reputation for quality. Now, we are one of the leading companies in the plastic-sheet industry.

Manufacturing plastic sheets requires four different stages: Extruding, Weaving, Laminating, and Finishing and Packing. Our quality control process starts with an examination of purity of PE and PP granules, our primary sources for plastic sheet production. ZIBO TAEHOON only imports the highest quality of PE and PP granules. Plastic sheets made with PE are typically used as household, construction, agriculture, industrial covers. The mesh fabric is woven with HDPE (high density polyethylene) yarns, providing extra strength, and both sides of the fabric are coated with LDPE (low density polyethylene), making it 100% waterproof. PP has very similar physical properties to PE but is lighter-weight and generally more rigid than PE. PP also has a higher resistance to cracking, acids, electrolytes, chemicals, and organic solvents. Plastic sheets made using PP are typically weed barriers and sandbags.

Quality control and R&D are essential. ZIBO TAEHOON possess manuals for quality control for every stage of our process. The four-stage process includes: 1. Extruding: a random test of the combination ratio of primary sources; 2. Weaving: checking the consistency of the weight, width, color, and strength of yarn; 3. Laminating: checking the color coating and thickness of the fabric; 4. Finishing and Packing: doubly confirming the finishing touches and ensuring that all accessories are in the correct places.

Our motto is "Make today better than yesterday," and we try to exceed the expectations of customers all over the world. ZIBO TAEHOON never stops investing in research and development, and we promise to continuously serve our customers by providing high-quality products at competitive prices.

4 Stages of processing

"Make today better than yesterday"

▼	1. Extruding
▼	2. Weaving
▼	3. Laminating
▼	4. Finishing & Packing

missed "make today better than yesterday" part!
